**FINANCIAL CAMPAIGN FOR QUADRUPLTS**—My wife Helen works 18 hours a day now," says Gladys Hargreaves with her and the quadruplets. Her committee had announced \$20,000 would be raised for the family, but only \$3,000 has been received since December, \$1,000 of which was from a benefit show.—S.N.S. photo.

Offers to adopt the Hargreaves quadruplets are beginning to come into the Smiths' file. Marie home of Gladys Hargreaves and his wife Helen. Four offers have come from the U.S. but none wanted all four babies. Estimated \$20,000 of intended \$20,000 has been raised by the city. "I don't think \$20,000 citizens will ever let the quadruplets be adopted," said Marie. Strained women, mother of 11 children, phoned to say she couldn't bear to hear of the four infants being taken permanently from her parents so she offered to take them for two years "until you get back on your financial feet." Smiths. Marie feels it has received a black eye from publicity which has swept country after possible adoption revelation.—S.N.S. photo.

**DREAMING, GIVES FIRE ALARM**—Betty Craig, 11, Preston, Ont., "sometimes talks in her sleep and sometimes wakes in her sleep," but "the payoff" came recently, according to Fire Chief Jack Bradstreet. She turned in a fire alarm in her sleep. When the fire bells wheeled up to her home, a sleep-eyed little girl got out of bed. "It was only a dream," she said. Betty's parents, Mr. and Mrs. Charles Craig, were out visiting when they got an excited phone call from her that their house was on fire. "We were alarmed. We didn't know what it was," she said. "I called our last to turn on an alarm and started off the door. Then the phone rang again. It was Betty and she said the house wasn't on fire. She had had a nightmare." Mrs. Craig said.—S.N.S. photo.

According to eyewitnesses, Russell chased his wife to a second killing when Louis rushed to his mother's aid. Calmly the murderer then drove to town. He double parked on Main St., and when police approached, moved to the back seat of his black sedan. There he got a rifle to the head and killed himself.—S.N.S. photo.

## Maple Sugar Time

Shown above is an angling shark typical of those in Eastern Canada and the U.S. Sugar industry in the U.S. is less profitable than it was a few years ago because of the high cost of labor and the reduction in maple trees. With some 5,000,000 trees in 1922 there is now only 3,000,000 with trees left.

The numerous attachments on this machine indicate to experienced tappers how much to tap the tree. The device and seasonal "run" and the construction of sugar in the sap. A portable tapping machine (left) for being used for the sap, spins even times in the sugar bush.
